

Upcoming IPCA Events

Register today for IPCA's 2024 calendar of events! From In-person conferences to virtual training workshops, IPCA offers access to a wide variety of educational events designed to keep your team trained and licensed all year long. Check [IPCA's website](#) for the most up-to-date registration and programming information.

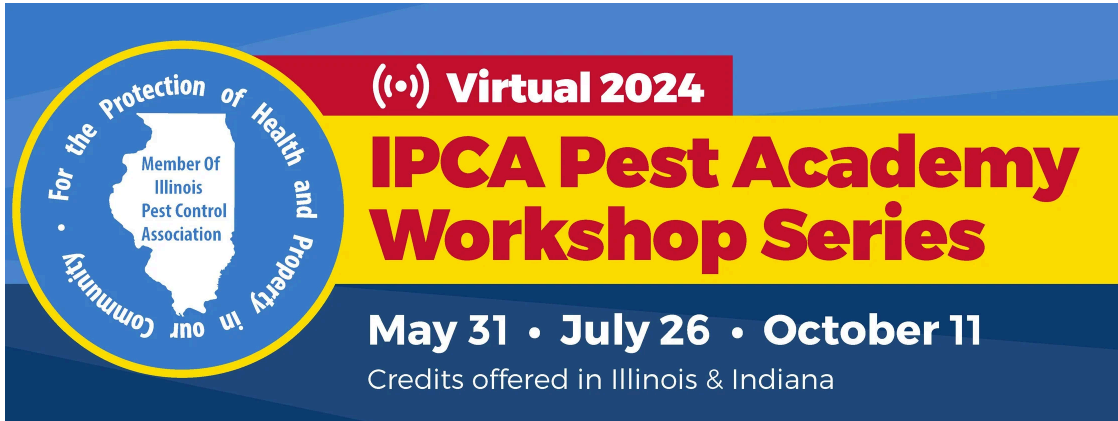

The IPCA is announcing **DISCOUNTED REGISTRATION RATES** for **group registrations** and for **new or unlicensed pest control operators** looking to elevate their training without seeking credit hours. During this two-day training event, join pest management professionals from across the Midwest to train with industry experts and gain access to our exhibit hall to learn about the latest in cutting-edge tools and services that the pest management industry has to offer! [Learn more about discounted registration and pricing on our site!](#)

The conference is now approved for credit in Missouri as well as Illinois, Indiana, Kentucky, and Michigan. [View continuing education credit information online.](#)

July 26: This 3-hour training is led by Jeff Caudill, Nisus Corp, Tim Husen, Ph.D., Syngenta, and Heather Patterson. This workshop covers the following topics: Small Fly Management, Cockroaches, and Stinging Insects.

October 11: 3-hour training with speakers and session topics coming soon!

Save the Date for the 2024 Fall Conference!

SEPTEMBER 23-24, 2024

2024 Fall Conference

Abraham Lincoln Hilton, Springfield, IL

Earn up to 9 credits during the event!

Notice from Illinois Department of Health

The Illinois Department of Public Health is currently experiencing technical issues with their licensing and exam software. The IPCA was provided the following message. Visit the [IDPH website](#) for the latest updates on this issue.

The pest control exam and the issuing of new/initial licenses has been delayed due to a software issue. Both of these processes will resume as soon as the issue is resolved. Any payments and applications submitted will be processed at that time.

PWIPM Illinois Indiana Chapter

The Professional Women in Pest Management (PWIPM) attracts, develops, and supports women in the pest management industry through educational programs, resources, and peer networking. Join the network of those who support this mission in Indiana & Illinois. Meetings are currently virtual. [Visit our website to join and learn more.](#)

Register for Women's Forum and Workforce Summit

Join us in Atlanta for the 2024 Women's Forum, an empowering event dedicated to fostering connections, sharing insights, and celebrating the achievements of women in the pest management industry. Programming features sessions covering leadership development, company culture, employee engagement, and more! Participants will leave this conference feeling inspired, energized, and equipped to bring back valuable insights to their teams.

Immediately following the Women's Forum, stay for the inaugural Workforce Summit where we're shaping the future of pest management. The summit will focus on driving the conversation on how to create a skilled, diverse, and engaged workforce that supports the evolving needs of the pest management industry.
